**CRIMINAL CASE
VOLUNTARY STATEMENT**

STATEMENT OF NILHOLAS RODRIGUEZ
GIVEN THIS 5 DAY OF OCTOBER, 2001

I, CO IV Rodriguez, was assigned as chain officer. At approx. 0900 the chain bus arrived from Robertson Unit. Offender Cardwell # 1041651 got off chain bus and I properly I.D.'d him and the rest of the incoming chain. He had no complaints. At that time he was put in the cage in 12 sallyport for approx. 10 minutes. At approx. 0930 I was told that UCC would be run in 7 gym. I then proceeded to take all the offenders to 7 gym. UCC arrived at 7 gym at approx. 1000 and ran the incoming chain first. When UCC was finished at approx. 1045 I took the chain to the chowhall and feed them. Then at approx. 1115 I went to unit supply and they were given mattresses and rolls. I then escorted the chain to 3 building and they were put in the multi purpose room and I began to inventory their property. After inventorying the property the offenders were left in the multi purpose room until approx. 1530 when I housed the offender in 7 G pod 21 cell. At no time did Offender Cardwell complain of any heat problems

STATEMENT OF R. J. Toll 459 512939
GIVEN THIS 5 DAY OF Oct, 2001

I Officer Toll at approx. 530p.m was doing paperwork when Desk Officer Morales told me to go relieve ~~Officer~~ Redder, he had an offender down on G pod cell 21 who was on the floor unresponsive. Officer Redder asked for SSI's to help. Redder, ~~Cults~~ and I assisted putting the offender on the gurney and get him out of the cell. ~~SSI's~~ I then saw them off the pod and continued roster counting. I never viewed the offender again.

To: James V. Allred Unit
 From: Amy Newman, RN

On 7/16/01, I was the acting charge nurse on the 3-11 shift. At approx. 5:50pm I received a call from 7 bldg security, the desk officer whom stated "I have a report of an offender that passed out and is unresponsive, I have notified my desk sergeant and 2 officers are going to check it out what are you going to do." I instructed the officer to return a call to me after the officers had verified the report (due to I was the only nurse in the building at the time.) I promptly received a return call from the desk officer stating that the offender was unresponsive and breathing. I instructed the officer to get the offender on the gurney and transport him to medical because I was the only nurse in the building. Ms. Sherman & Ms. Manchen returned to the building from their assigned duties, at which time they were notified of an inmate coming to medical from 7 bldg unresponsive. I then directly received another call from 7 bldg informing that the gurney was unsafe and someone was coming to get a stretcher, upon hanging up the phone Lt. Burger entered the clinic, I asked if he was there to pick up the stretcher he said "I guess I am". I retrieved the stretcher. Lt. Burger walked out of medical with Ms. Sherman and the gurney. The offender was brought into 10 bldg on the stretcher with the gurney between him and the stretcher followed by security and Ms. Sherman. The offender was brought into the ER @ 6:05pm and treatment was begun by Ms. Sherman, Ms. Manchen, Dr. Wipperman, and I. The offender was extremely hot to touch, skin hot & dry, cyanosis to the neck & face, labored respirations, pupils fixed & dilated, offender unresponsive. He was started on O2 via mask, axillary temp 106.9, IV access was obtained and IV fluids initiated. Upon arrival to the ER the inmates name & TDCJ number were unavailable and were obtained by security. Security also placed a call to High Security medical requesting additional medical staff. There were some difficulties including obtaining & finding supplies and medication, also all the ice in the infirmary was used until no longer available and the ODR had to be notified to bring more ice to the ER. The offender was pack in ice as it was made available. The offender's boxers had to be cut off to apply ice to directly to the groin area. Dr. Wipperman had contacted Electra Memorial Hospital, which declined to accept the offender and she placed a call to United Regional who accepted the patient. A call was placed to AMR for ambulance transportation with report given and notification that the offender was in critical condition. Previous to this event there was another offender awaiting transport to Electra Hospital by ambulance. The first ambulance to arrive was Electra, they came into the ER and were redirected to the appropriate offender. They initially loaded the previous offender on the gurney it was then decided, by the ambulance staff and Dr. Wipperman, that they would transport the offender in the ER to United Regional since the previous offender was stable and the offender in the ER was in critical condition. As the inmate was being loaded onto the gurney the medical records were obtained. Staff in medical records had made the Email. The offender was transported to United Regional ER in critical condition, respiration remained labor, cyanosis was present to the neck & face, hypertensive, pupils remained fixed & dilated. Left the ER @ 6:25pm on ambulance stretcher with ambulance staff &

security. United Regional ER was notified and given departure report of offender in route & AMR was notified of transportation changes.

STATEMENT OF J.W. M^{rs}. Cowan # 786708
GIVEN THIS 18th DAY OF August, 2001
at 11:20 o'clock ☒ AM ☐ PM My name is _____
My telephone number and address are () Allred unit

I am not under arrest, nor am I being detained by any law enforcement agency. I understand that I am free to leave at any time I choose. I voluntarily give this statement.

On July 16, 2001 I, J.W. M^{rs}. Cowan was working on 7G when after evening chow a new offender was brought in. After this offender was taken into 1-section there was some commotion as to getting him housed. It seems this offender was in the shower or something. I was still in deep space. After RO-III Steward finally got this offender housed, she came out and ~~the~~ tried to tell the picket officer something but the inter-com on that side ^(1-section) did not work so, she came over to the other side ~~to~~ (3-section) and told the officer in the picket that "she did not think he (the offender) would make it through the night" at which point the picket Boss (Don't know name) said, "Fuck him if he dies he dies." I was under the impression that this offender was afraid. Until this time. At any rate Mrs. Steward went up front to notify the desk (CO III ~~Morales~~ Morales)

20-1

STATEMENT OF J. W. Mc Cowan

I remained in the deep space, therefore I do not know what was said but I did begin to understand that Mrs Steward was concerned. Soon there after count was called and all SSI was called to the front desk. After about another 35- to 40 minutes the desk sergeant told 3 SSI (myself included) to go help get this offender out of his house because he was sick. When we got to 3 row one-section we found this offender was "out for the count" with absolutely no movement. We ~~carried~~ carried him to the front desk but due to drip-rot the stricker began to fall apart and Sgt. Marge told us to put him down in front of the desk. At this time I observed that this offender was blue in the face. I began to make it know that he was blue in the face. At which Sgt. Marge order the camera be put on him. Now during this time there was also a problem as to the infirmary coming to pick him up. It seem there was no one so the Sgt. sent a CO III to go and bring a wheeled chair. Thereafter CO III Novales told us to move back... down to "H" section but Sgt. said, "Go to work" and we left.

My telephone number and address are () Allred Unit

I am not under arrest, nor am I being detained by any law enforcement agency. I understand that I am free to leave at any time I choose. I voluntarily give this statement.

ON 7-16-01 BETWEEN 4:20 P.M. - 5:20 P.M. I WAS WORKING MY ASSIGNED PD ON 7-BLDG WHEN AN INMATE NAMED ~~POWERS~~ ^{CARDWELL - CL.} MOVED INTO 7B 21 CELL. I FIRST NOTICED THAT SOMETHING WAS WRONG WHEN ~~POWERS~~ ^{CARDWELL - CL.} WENT TO THE SHOWER AND WOULDN'T COME OUT. I THEN INTRODUCED MYSELF AND ASKED IF THINGS WERE ALRIGHT. HE STATED YES, BUT THAT WAS OBVIOUS TO ME THAT THINGS WEREN'T. I EXPLAINED THAT NO ONE WANTED TO BEAT HIM UP AND TAKE HIS PROPERTY OR HURT HIM. HE SEEMED TO UNDERSTAND AND AFTER A FEW MINUTES LEFT THE SHOWER. ONCE HE LEFT THE SHOWER HE WONDERED AROUND BY THE SHOWER. I SHOOK HIS HAND AND NOTICED THAT IT WAS VERY HOT. JUST TO SEE IF HIS ARM WAS HOT MORE OUT OF CURIOSITY THAN MEDICAL TRAINING I TOUCHED HIS ARM. IT WAS MORE HOT THAN HIS HAND. I ALERTED THE OFFICER ON 3 ROW AT THE TIME TO FEEL THE INMATE'S ARM. ONCE SHE DID THIS SHE GOT HIM IN THE ASSIGNED CELL AND NOTIFIED THE OFFICERS WHO WERE WORKING WITH HER BOTH THE CONTROL PICKET OFFICER AND 7 BLDG DESK OFFICER. AT FIRST I THOUGHT HE WAS SCARED, BUT I KNOW NOW THAT HE WAS SICK AND NOT FEELING HOW LONG HE WAS SICK BEFORE COMING TO JAMES V. ALLRED.

VOLUNTARY STATEMENT

STATEMENT OF LAURENCE McCulloch 821769
GIVEN THIS 18th DAY OF August, 2001
at 1100 o'clock ☒ AM ☐ PM My name is LAURENCE McCulloch
My telephone number and address are ()

I am not under arrest, nor am I being detained by any law enforcement agency. I understand that I am free to leave at any time I choose. I voluntarily give this statement.

ON 8-4-01 while working AS AN SSI in G pod of
I building I was in a section while officer Stewart
was doing h2 in's o outs. Inmate Lassiter was on
the 2 row with officer Stewart when they discovered
an inmate who had a high body temperature. When
officer Stewart called on the PA to officer Redder
to tell him to notify the desk, officer Redder
said he didn't care if the inmate died, he wasn't
going to act on the Stewart's request. Some time
later - after chow & during count - we were standing
at the front desk for count, Before coming to
the desk for count O. Stewart told O. Morales to
get the Sgt. March down to G. Pod. That request
was ignored. Now O. Stewart had requested that
the stretcher be sent to G pod. Soon some
of the SSI's (wotme) brought the inmate out to
the front desk and set him on the floor.

TDCJ-INTERNAL AFFAIRS DIVISION

CONTINUATION

VOLUNTARY STATEMENT OF: One of the guards started filming
the sick inmate. Sgt March was screaming at
O. Morales (who was on the phone) to call the infirmary
at once & get a gurney as the emergency situation
had form. Sgt March was ignored by O. Morales
as she was still doing court on the phone. (Sgt
March was locked out of the cage.) Sgt March noticed
all of us SS's watching the show and ordered
us to go to the pods. As we were leaving
O. Morales hung up the phone, turned to Sgt March
and said, "I had to finish the court". At
that time we left for the pods - the inmate
still laying on the floor - turning blue.

To: Warden R. Treon Date: 7-19-01

From: Major J. Bowman Subject: As Stated

While interviewing Officer Stewart, Retha SSN [REDACTED] she stated that she asked Officer Redder, Frederick SSN # [REDACTED] twice to call a supervisor. She stated she told Officer Redder something was wrong with the offender. He stated, "So", and to rack him up for count. Officer Stewart admits that she put the offender in the cell and proceeded to count. Officer Stewart then turned in her count sheets and asked the desk officer to have Sgt. March come to the pod when she got off the phone. She never stated the offender needed medical attention.

Officer Redder admits he did not call for a supervisor when Officer Stewart asked for one. He then stated she never said it was for medical reasons. He later admitted that she might have said it was for medical reasons, and he just stated, "So", but he could not remember. Officer Redder later recanted that version and stated she never said it was for medical reasons. Officer Redder still stated he did not call for a supervisor until he saw the offender laying on the cell floor.

I acknowledge receipt of a copy of this action and understand that this information shall be placed in my unit disciplinary file and employee master personnel file.

NAME

DATE

To Whom It May Concern:

I wrote the truth about the Offender Cardwell incident in my statement. I did not know that he was physically ill. I do not have a medical background therefore I am unable to make a medical assessment. All I wanted was a supervisor to advise me on what I should do about the situation. I have always been taught in TDC to go through the chain of command. Another thing I have been taught in my 51 months with TDC is - if a rover thinks that someone needs medical, he notifies the picket officer and he in turn contacts the desk. The desk officer informs the building supervisor (if possible) or calls medical.

I did not feel that I could abandon my assigned post to find the supervisor after having already asked the picket officer to locate her. So I did the next best thing. I racked the pad, counted quickly and accurately, then went to the Sally port and got the desk officer's attention. I told her that I needed to talk to the Sergeant as soon as she got off the phone. That request was also to no avail.

When I switched out with the picket officer, I talked to a co-worker on the Stentafon and told him that I was upset. I have talked to my family and my pastor about the situation. The major and the Captain told me not to worry because I had done all I could do and that I should just tell the truth. My quote to my pastor was "if only I had known what was wrong, I could have given him a drink of

Copy of OIG case to Litigation Support on 06/26/2013 by scm
UNAUTHORIZED COPYING OR VIEWING PROHIBITED

24-5

water or turned the shower on him,
even with his clothes on."

Hindsight is always better than foresight
but I ~~had~~ knew nothing about his
medical or physical condition. ~~Had~~ I known,
I might have handled the situation differently.
Because of my lack of knowledge —
I am now at your mercy.

Thank you for your consideration

Synopsis of Incident(s): On 07/16/01, Officer R. Stewart was assigned to 7 Building G Pod. She discovered that an offender was in need of medical attention. She requested a supervisor, however, the supervisor was not called for. She then proceeded to count instead of contacting the supervisor. Off. Stewart failed to take all reasonable steps to get the offender medical attention. The offender had to be transported to a Wichita Falls hospital for heat stroke.

Please be advised that you may:

1. Make a one-time request that the Employee Hearing be rescheduled within 30 days if you are on approved sick leave. The request to reschedule the hearing must be made within 48 hours of receipt of this form;
2. Upon request, be provided copies by the reprimanding authority of the evidence supporting the alleged violation(s) that is subject to disclosure. To obtain copies of evidence that is not subject to disclosure (e.g., confidential portions of IAD and EEO reports), you must request the documents in writing through an Open Records request. The request will be processed in accordance with the rules governing an open records request, and the requested documents may not be available before the Employee Hearing.
3. Present oral or written statements in your behalf;
4. Present witnesses (at no expense to the Agency other than paid time for employees serving as witnesses) or present statements from witnesses in your behalf;
5. Ask questions of person(s) who appear at the Employee Hearing as witnesses against you (confidential informants may be questioned only at the Reprimanding Authority's discretion);
6. Have a representative of your choice present at and participate in the proceedings as outlined in the Guidelines for Employee Hearings on the reverse of this form.

I ☒ do ☐ do not wish to appear at the Employee Hearing. I understand my failure to appear without prior notice may constitute a waiver of the right to an Employee Hearing and that the Employee Hearing may be conducted in absentia.

To: Warden R. Treon Date: 7-19-01
From: Major J. Bowman Subject: As Stated

While interviewing Officer Stewart, Retha SSN # [REDACTED], she stated that she asked Officer Redder, Frederick SSN # [REDACTED] twice to call a supervisor. She stated she told Officer Redder something was wrong with the offender. He stated, "So", and to rack him up for count. Officer Stewart admits that she put the offender in the cell and proceeded to count. Officer Stewart then turned in her count sheets and asked the desk officer to have Sgt. March come to the pod when she got off the phone. She never stated the offender needed medical attention.

Officer Redder admits he did not call for a supervisor when Officer Stewart asked for one. He then stated she never said it was for medical reasons. He later admitted that she might have said it was for medical reasons, and he just stated, "So", but he could not remember. Officer Redder later recanted that version and stated she never said it was for medical reasons. Officer Redder still stated he did not call for a supervisor until he saw the offender laying on the cell floor.

I acknowledge receipt of a copy of this action and understand that this information shall be placed in my unit disciplinary file and Employee Master Personnel File.

Region V Director

Date: August 3, 2001

From: Robert R. Treon-Senior Warden
James V. Allred Unit

Subject: Redder, Frederick L.
SSN 457-85-2781

On 8-1-01, I conducted an employee disciplinary hearing on COIV Frederick Redder SSN [REDACTED] for possibly violating rule number 5A-Reckless Endangerment of the Employee General Rules of Conduct. During the incident in question, Officer Redder was assigned to the 7G-pod control picket when he was made aware by Officer R. Stewart SSN [REDACTED] (7G-pod Rover) there was a problem with a newly arrived offender assigned to 7G-21 cell. According to the available evidence, Officer Stewart advised Officer Redder on two occasions over the intercom something was wrong with the offender and she needed a supervisor. Officer Stewart states during their second conversation, she advised Officer Redder the offender was sick. Officer Redder denied this allegation; however, it was corroborated by offenders in the immediate area who overheard Officer Redder on the intercom. Officer Redder also denied he spoke with Officer Stewart twice. Officer Redder did admit Officer Stewart had told him "something" was wrong with the offender and that she requested a supervisor immediately. Officer Redder also admitted he did not contact anyone. When questioned Officer Redder could offer no reasonable explanation for not calling a supervisor to the scene. Officer Redder's admission and the preponderance of the available evidence clearly indicate Officer Redder failed to act in an appropriate manner to Officer Stewart's request for assistance. Based on this evidence and the fact the offender in question was subsequently diagnosed as suffering from heat stroke and remains in critical condition, I find Officer Redder guilty of violating rule 5A-Reckless Endangerment and have recommended his dismissal per PD22 guidelines. It should be noted Officer Redder received training on heat related illness in April of this year. This is submitted for your information.

Inter-Office Communications

To: Warden R. Treon - Sr. Warden

Date: July 24, 2001

From: Richard Wathen, Assist. Warden
James V. Allred Unit

Subject: Offender Interviews

On July 24, 2001 I interviewed four- (4) offender SSI's regarding the July 16, 2001 incident involving Offender John Cardwell #1041651. These four offenders claim to be witnesses to different events surrounding this incident. The offenders interviewed were Roland Rojas #859646, J. W. McCowan #786708, Christopher Lassiter #573946, and Eugenio Cenicerros #641115.

Offender Lassiter informed me that after Offender Cardwell had been in the section for approximately 15-20 minutes he informed Officer Stewart the offender was sick. He claims prior to this no one knew that the offender was sick as he was responding to questions and moving around without difficulty. He stated during this time period Officer Stewart was checking cells and talking with other offenders. After notifying Officer Stewart of Offender Cardwell's condition, Offender Lassiter claims that she attempted to get the control officer's attention but he did not see her and the intercoms did not work. All of this activity occurred on three- (3) row of One (1) section in G Pod. Offender Lassiter states that Officer Stewart then proceeded to the D space to speak with the control officer via the intercom. He did not hear any of the conversation between Officer Stewart and Officer Redder. He further claims that approximately 15-20 minutes elapsed after that before the sergeant and other officers entered the pod to check on Offender Cardwell.

Offenders McCowan and Cenicerros both claim that they were in the D space when Officer Stewart came out of one section. They state that she attempted to use the intercom by the one section door but it was not working. She then went to the three-section intercom inside the D space and informed the control picket officer that there was a sick offender in the section. Officer Redder made the statement "Fuck him if he dies" or something similar. Both offenders claim to have only been about twenty (20) feet from Officer Stewart and the intercom when this was stated and heard it plainly. They claim Officer Stewart then went towards the desk and told Officer Morales to notify Sgt. March of the situation when she got off the phone (all the offenders claim that the desk was dealing with an offender at the time who was refusing to house). Approximately 15 minutes later the sergeant and other officers came to the pod.

Offender Rojas claims he did not hear any of the conversation between the officers but did verify the times the other offenders provided.

In summation, it appears as if the offenders relate enough of the same information, without it being exact, to indicate truthfulness. The time lines given all indicate that Offender Cardwell was in the section approximately 15-20 minutes prior to anyone being aware that he was ill. It appears that Officer Stewart made two (2) separate attempts to notify appropriate staff of the situation. It also appears that Officer Redder was notified in a sufficient manner and gave an inappropriate

response and failed to take further action. Offender Cardwell remained in the section approximately 15 minutes beyond Officer Stewart's notification to the desk before assistance arrived.

To: Warden Treon – Sr. Warden
Allred Unit

Date: July 25, 2001

From: Richard Wathen, Assist. Warden
James V. Allred Unit

Subject: Investigation

On July 25, 2001 interviews were conducted with staff members concerning the July 16, 2001 incident involving Offender Cardwell, John #1041651 in Seven (7) Building, G Pod. The following is a timeline and occurrence record as related from accounts given by the staff involved.

1630 hours – Offender Cardwell arrives at Seven (7) Building, G Pod. Other offenders begin to tease him and made statements such as fresh meat, etc. (This reaffirms staff's original belief that the offender was displaying behavior due to being scared rather than being ill).

1635 hours – Officer Stewart and other offenders discover Offender Cardwell in the shower. The offender is acting scared and other offenders and Officer Stewart spend the next 10 minutes trying to calm him down and reassure him he will be all right.

1645 hours – Officer Stewart proceeds to the D space and informs Officer Redder that she needs Sgt. March because there is something wrong with an offender. Officer Redder either replies "So" or "Fuck him" depending on which witness statements are considered (Officer Redder denies making either statement but is unable to recall what his response was). Officer Redder does acknowledge that he did not call for a supervisor.

1646 hours – Officer Stewart goes back into the section to check on the offender. At this point she discovers the offender is very hot. She and some offenders continue to talk to Offender Cardwell in an attempt to calm him down.

1650 hours – Officer Redder claims Officer Stewart leaves the Pod at this time to inform the desk of the problem and when she returns he assumes the situation is resolved. Officer Stewart and Officer Morales both claim that this did not occur (Officer Redder states that he could be mistaken about this point).

1656 hours – Officer Stewart proceeds back to the D space to again have Officer Redder call for the sergeant because the offender is hot. Officer Redder claims that this second trip to the D space never occurred because Officer Stewart had already secured the offender in his cell. Officer Stewart is positive on this point as she claims she secured the offender only a minute before she started her count, which occurs later.

1659 hours – Officer Stewart enters the section again to check on the offender.

1709 hours – Officer Stewart secures the offender in his cell.

1710 hours – Officer Stewart begins her count.

1725 hours – Officer Stewart completes her count and proceeds toward the Seven (7) Building desk. Sgt. March is on the telephone so she tells Officer Morales to have Sgt. March come to the pod when she gets off the telephone. Officer Morales affirms that this is her first contact with Officer Stewart regarding any problem on the pod.

1730 hours – Officer Stewart and Redder switch duty posts. Officer Redder begins his count, arrives at cell 7G-21 and notices Offender Cardwell unresponsive. Officer Redder instructs Officer Stewart to call the sergeant. Officer Stewart notifies the desk. Officer Morales contacts the Medical Department and speaks with LVN Newman.

1730 hours – Officer Morales calls Officer Stewart and inquires as to whether the offender is breathing.

1733 hours – Staff respond to the building with a gurney.

1743 hours – Offender Cardwell is taken from the building to the Unit Infirmary.

Be advised that times are only approximate as all staff times varied slightly. The course of events is believed to be factual as they were verified through witness accounts. The only events which are being contested are the actual number of times Officer Stewart proceeded to the D space and notified Officer Redder of a need for a supervisor and what Officer Redder's response was when notified of the offender's condition. Preponderance of evidence indicates the course of events as listed above are correct and Officer Redder most likely issued an inappropriate response to Officer Stewart's request.

Inter-Office Communications

To: Warden R. Treon Date: July 16, 2001

From: Officer R. Stewart, CO III *RS* Subject: Offender Cardwell #1041651

At approximately 1630, Offender Cardwell TDCJ #1041651 was brought to 7G to be housed in 21B cell. At approximately 1635 when I, Officer Stewart CO IV, found Offender Caldwell in the shower, he seemed to be very scared and when he spoke, he rambled. He was taking his shoes off, and the offenders in 7G-1 section were telling him that he would be alright. Offender Edwards went to get him a towel, and Offender Lassiter borrowed some shower slides from an offender in 20 cell. The offenders were telling him to take a shower and calm down. At approximately 1645, I went down to the picket (because you can hardly hear over the speakers). I told Officer Redder to call Sgt. March because something was wrong with the offender. Officer Redder's response was, "So?"

At approximately 1646, I went back to 3 row 1 section shower, and the offender stood up and was coming out of the shower. He told me that he was going to the bus to get his stuff. These were the first words that I understood. He appeared to be shaky. He came out of the shower with Offender Lassiter sort of guiding him. Offender Lassiter said, "Ms. Stewart, touch his arm. He is burning up." I touched his arm (above the wrist), and it was just that, very hot. Offender Cardwell sat back down in the shower stall, and at approximately 1656, I went back down to the picket to call the Sgt. I told Officer Redder that the offender was red hot. Officer Redder said, "What do you mean-red hot?" I said, "His skin is very hot. He is talking out of his head. He is sick or something is wrong." I asked him to call the Sgt. Officer Redder said, "My advice is to rack him up and count." I said, "Is it 5:15?" Officer Redder said, "Close enough for me!"

At approximately 1659, I again went to 3 row 1 section shower. I went back to the offender, and he was walking around like he might not know where he was. I thought that he might be a psych. patient needing some meds. and that he was scared. With the assistance of other offenders, I got the offender out of the shower and racked him up. At approximately 1710, I went to the floor, got my clipboard, and proceeded with count. I racked up and counted all 3 sections and at approximately 1725 I took my count sheet down front. Sgt. March was on the phone, so I got Officer Morales' attention and told her to tell the Sergeant that I needed to talk to her. I went into 7G control picket, and Officer Redder began the roster count. When he got to 21 cell at approximately 1730, he motioned for me to call rank. Immediately, I called the desk and talked to Ms. Morales and told her that Offender Cardwell had passed out. She hung up, then called me back at approximately 1731 and asked if the offender was breathing. I told her that he was breathing but not responding. At approximately 1733, the desk sent officers and offenders with a gurney to take Offender Cardwell to medical. At approximately 1743, they carried the offender out of 7 Building.

Inter-Office Communications

To: Warden R. Treon Date: July 16, 2001

From: F. Redder, CO IV Subject: Cardwell, John #1041651

On 07-16-01 at approx. 1630, Offender Cardwell, John #1041651 came onto the wing to move into 21 cell. At the time said offender came in, the rover was doing an out in 3 section. At approximately 1635, the rover went up to three row so the offender could put his mattress and pillow into his cell. Said offender was walking up and down the three row walkway. At approximately 1640, the rover came down to the D-space and told me that she needed a Sgt. to the pod and the said offender was not refusing housing, but that he would not go into his house. I told her to try to get him into his cell again. At no time did she notify me that she needed medical. I did not call a supervisor. At approximately 1645, she went back up to three row and was talking to the offender. The offender went into his cell, and she closed the cell door and came to the D-space. At approximately 1650, she walked to the desk and came back into the D-space. I thought the problem was resolved. At approximately 1710, she got her count sheet and started counting in 1 section. At approx. 1735, I went to 1 section 3 row to do the roster count. When I got to 21 cell, I saw that the offender was layiing in the cell floor not responding to my call for his I.D. card. I got the picket to roll the cell door. I then told the other offender in 21 to step out. I then started trying to get said offender to respond. At approximately 1740, I told Officer Stewart that I needed a Sgt. and that the offender was not responding. Officer Shults and Officer Toll arrived on the pod at approximately 1745 with a cloth gurney to carry him from three row. Due to the offender's weight, I told Officer Stewart that we needed more help. Four SSI's showed up. Me, Officer Shults and Officer Toll placed the offender on the gurney, and the four SSI's carried him from the cell to the front of the desk. At that time, the cloth gurney was ripping, so the SSI's placed him on the floor in front of the desk, while Officer Merklin went to medical to retrieve a gurney to roll him to medical. At approximately 1755, Officer Merklin showed up on the building with the gurney and the offender was placed on the gurney and immediately rolled to medical. At approximately 1800, I went to medical to assist. At approximately 1810, I was asked by a nurse to help take off said offender's boots. I then left medical and returned to 7 Building. At approximately 1820 I left 7 Building to turn the roster counts in and then went to medical to talk to the captain. At the time said offender was being rolled to the ambulance. At approximately 1830 I was asked to give the E-mail to the officer leaving. I then left medical. I have no further knowledge of this incident.

From: Offender Eugenio Cenicerros #641115 Subject: As Stated

On 7-16-01 inmate arrived at 7-G. SSI's were carrying a mattress and pillow to 21-3 Row. I saw Mrs. Stewart with the inmate, inmate did not want to go to the cell. He went to the shower and stayed in there. I thought he was scare. His face started to get blue. Mrs. Stewart told the picted officer that the inmate was very sick. Officer reply was Fuck Him. I'm on the telephone now, if he dies he dies. Then Mrs. Steward went to the desk and said to Mrs. Morales that there was a sick man to tell Sgt. March. Mrs. Morales alright alright. Mrs. Morales told us SSI's to the end of H pot hall and sit down. Sgt. March said you all SSI's go to your pot's. Sgt. March was coming out when inmates were carrying the sick man. Sgt. said put him down and told Morales to call inforey for a gurney and told the officers to get the camera. The officer did not know how to turn it on or was having trouble with it.

To: Warden R. Treon Date: July 16, 2001
 kw- 786708
From: Offender J. W. McCowan TDC #786708 (7G-16T) Subject: As Stated

On the 16th of July, 2001 while I was working in 7 building G pod, a new inmate was brought in with mattress and what I assumed was his property. This inmate was complaining say, "I sick" and he was acting somewhat strange. There was some sort of problem as to getting him in a house, because he was in the shower. After housing this inmate Ms. Steward came out and told the boss something to the fact that this inmate "was not going to make it." The picket boss's response was, "Fuck him, if he dies he dies or something to that effect." Soon there after she went to the desk and told Ms. Morales. But nothing was done.

Then we went about our jobs, as cleaning and staying with Ms. Steward. Then count was called and all SSI(s) was called to the front. After 30 or 40 minute we were called to assist the office in getting this inmate from 3 row because he was out for the count.

While carry him the gurny began falling apart from dry rot and the inmates weight. After, get him to the front desk. The Sg. Ms. March called the infirmary for a wheel chair, but was told there was anyone available to bring it, so, she send a duty office.

At this time I notice that the inmate's face was beginning to turn blue, I inform the Sg. She order the camera be put on him and sent us back to our assigned pod.

Inter-Office Communications

To: Warden R. Treon Date: July 16, 2001

From: Offender Christopher Cassiter #573946 Subject: As Stated

On 7-16-01 between the hrs. of 4:20 and 5:20 p.m. I had introduced myself to Inmate Powers who was new on the farm and assigned to 7G-21 (B). The reason why I introduced myself to this inmate is because I thought he was afraid because he was sitting in the shower on the metal ledge and wouldn't come out. I explained to the guy that things were cool on this farm and that nobody wanted to hurt him or to take his stuff. He seemed to understand. His physical appearance wasn't exactly good and his skin was extremely hot. I know this because I shook his hand. After I shook his hand and realized how hot it was, I touched his arm. It was even more hot than his hand. I alerted Officer Stuart to this guys skin temperature who in turn escorted the offender to his cell and locked the cell door. Officer Stuart then left to inform Officer Redder in the control picket while I stayed in front of Offender Powers cell to make sure he was well enough untill medical could get to his cell. Once the security personel was alerted to the inmates condition and since there was nothing else I could do for inmate Powers, I left and proceeded with my SSI duties. AT around 5:15-5:20 cleaning the outside recreation yard when I saw officers with a green stretcher. A few minutes later several inmates went to G-pod to help bring Inmate Powers to the infirmary because he was heavy (at least that's what I assume). The stretcher was ripping while the inmate was on it. So he was sat down in front of the searchers desk while another female officer left to go to get a gurney form the building. While the inmate was on the stretcher on the floor he was shaking and having a hard time breathing and his whole head was turning a dark blue. It was almost like he was going into convulsion. Officer Schulz put the video camera on the inmate and we were told by Sgt. March to go to our assigned pods. We left.

Observations & Interventions with Goals & Expected Outcomes

Licensed Clinical Tech to sign initials in appropriate column each shift.
Changes to Plan of Care will be initiated by licensed person.

Restraint/ interventions:

1. Every 2 hours perform circulatory checks on restrained or immobilized extremity
2. Every 2 hours while awake and PRN when indicated: remove the restraint and perform ROM on all restrained or immobilized extremities, one extremity at a time.
3. Every 2 hours while awake and PRN when indicated: reposition
4. Every 2 hours while awake and PRN when indicated: encourage coughing and deep breathing
5. Every 2 hours while awake and PRN when indicated: offer fluids and opportunity for elimination
6. Assist patient with meals at unit specific mealtimes and PRN
7. Assist patient with ambulating PRN as warranted by patient's condition
8. Reassess the patient to determine the continuing need for the restraint/MPD every shift and PRN for patients with primary med/surg needs
9. Educate the patient/SO about why the restraints/ is being used, care to be given and how to prevent future use.
10. Document according to procedure on unit specific nurse notes.
